## WORK EXPERIENCE

2025 - PRESENT

### Machine Learning & AI Projects

- Developed and optimized ML models for Kaggle competitions, achieving competitive leaderboard rankings.
- Built and maintained AI-driven applications, integrating data preprocessing, model training, and deployment workflows.
- Utilized GitHub for collaborative development, version control, and CI/CD automation.

2025 - PRESENT

### Kaggle Competitor

- Participated in Kaggle ML/AI competitions, developing and optimizing models for high leaderboard performance.
- Contributed to collaborative projects, leveraging GitHub for version control, code reviews, and workflow automation.
- Led team initiatives, ensuring timely delivery of machine learning features and model improvements.

2022 - PRESENT

### GitHub Contributors

- Contributed to ML/AI and software repositories, delivering optimized, well-documented code and ensuring smooth integration with evolving frameworks.
- Led a collaborative project team, managing development cycles, task allocation, and feature deployment.
- Utilized GitHub for version control, code reviews, and CI/CD to streamline collaboration and delivery.
